

PURE GLOW

SPF 60 Oil

GM106R

5.0 fl. oz. | 148 mL

GlyMed+ Pure Glow SPF 60 Oil is a luxurious, antioxidant-rich body oil that delivers broad-spectrum SPF 60 protection with a nourishing, luminous finish. It hydrates, smooths and leaves the skin soft, radiant and beautifully protected.

RECOMMENDED FOR

All skin types, especially dry, normal and sensitive. Great for higher Fitzpatricks 4 – 6 (deep skin tones), large pores and facial hair.

DIRECTIONS

Apply generously 15 minutes before sun exposure. For spray application, mist evenly onto the skin and gently press or massage until fully absorbed. For pump application, dispense 1 – 2 pumps into hands and smooth evenly over the face, neck and exposed areas.

Reapply at least every two hours and after swimming, sweating or towel drying. Avoid spraying directly into the eyes or inhaling product.

INGREDIENTS

Active SPF Ingredients:

Homosalate (10%): – Shields against UVB damage to prevent sunburn.

Octisalate (5%): – Enhances SPF performance and maintains formula stability.

Octocrylene (10%): – Provides UVA/UVB protection while improving photostability.

Avobenzone (3%): – Delivers complete UVA defense for comprehensive sun safety.

Inactive Ingredients:

Caprylic/Capric Triglyceride, C12-15 Alkyl Benzoate, C15-19 Alkane, Tocopherol, Argan Oil, Shea Butter, Coconut Oil, Olive Oil, Organic Rosemary Extract

KEY INGREDIENTS

Argan Oil & Shea Butter: Deeply nourish and condition the skin. Argan Oil restores elasticity and radiance, while Shea Butter delivers long-lasting moisture and barrier support.

Coconut & Olive Oils: Provide hydration and impart a natural, healthy-looking sheen.

Rosemary Extract & Tocopherol (Vitamin E): Potent antioxidants that protect the formula's integrity, combat free radical damage and promote smooth, soft skin.

FREQUENTLY ASKED QUESTIONS

Is this Oil acne-safe?

Yes, this formula is suitable for many acne-prone skin types. It features lightweight emollients that help the product apply smoothly, feel comfortable on the skin and provide a non-greasy finish with a natural looking glow. For those who prefer a more matte, oil-free option, we recommend our Oil-Free Protective Moisturizer SPF. Ask your skincare professional which formula is best suited for your skin type and concerns.

Does this provide broad-spectrum protection?

Yes. This SPF formula uses clinically established, FDA-approved, pharmaceutical-grade UV filters to provide broad-spectrum protection against both UVA and UVB rays, helping protect against sunburn and premature skin aging.

Will this SPF clog pores or cause breakouts?

This formula is developed to be lightweight and dermally compatible, yet it also contains nourishing botanical oils that may feel too rich for very oily or highly congestion-prone skin types. As with all skincare, individual responses may vary. Ask your skincare professional which formula is best suited for your skin type and concerns.

Can I wear makeup over this sunscreen?

Yes. This SPF layers comfortably under makeup. Allow it to absorb for a few minutes before applying foundation or other complexion products.

Is this safe to use during pregnancy or while using acne treatments like Accutane?

This sunscreen does not contain active ingredients commonly avoided during pregnancy or Accutane use. It is generally considered suitable for these skin states; however, it is advised that you consult your healthcare provider before adding sunscreen or other skincare products to your routine while pregnant.
